# Net Zero

Commitment by General Synod Feb 2010

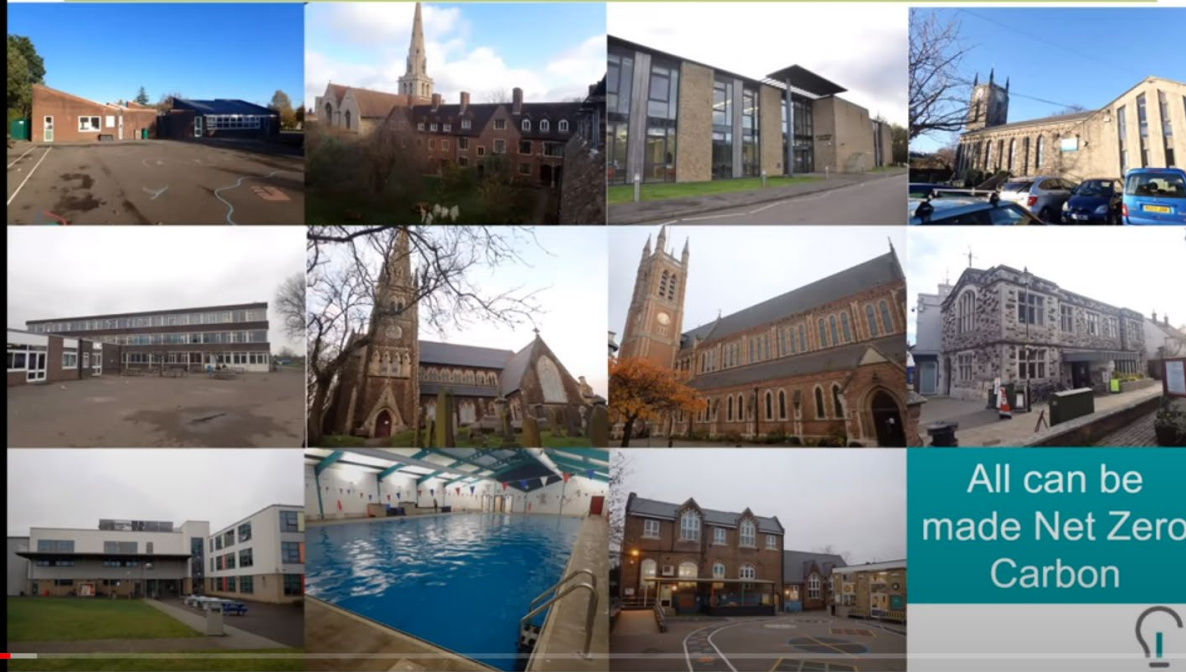

Enshrined in what we believe as Anglican Communion since 1984- fifth mark of mission, placed there by global majority churches

Implications for all of us in our parishes, offices and lifestyle

What's needed in practice to get to net zero carbon? The results of the Wayfinders Project

# Practical path to net zero

## principles

- maintain well
- buy renewable
- waste less, share
- electric not oil/gas
- generate more
- offset the rest

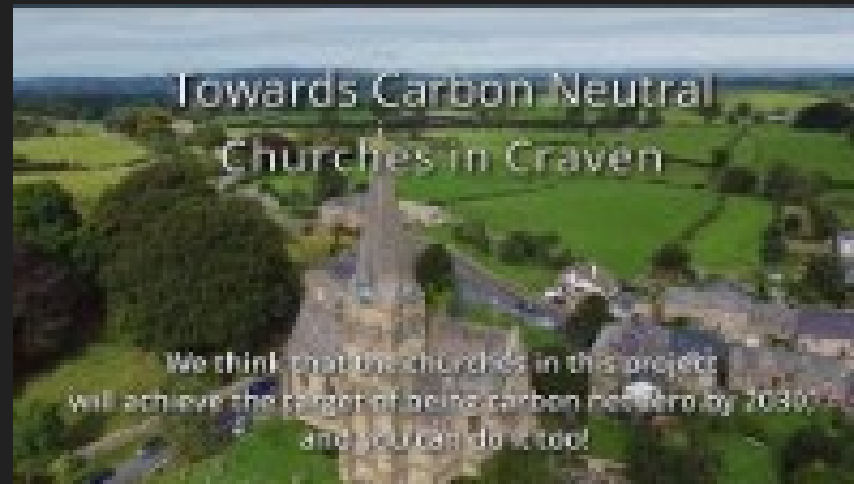

## process

- resilience: plan it, take the time
- replace with care
- be budget savvy -needs a long term view
- network, stay in the loop as you fundraise and progress

# Reflections? & Discussion

What do you need to do?

# My suggestions

- Complete your energy footprint tool
- Look at your fuel supply- is it renewable energy?
- Reflect on your progress right now
- Eco Church tool
- Consult experts and case studies
