8 Original songs, 3 pieces of instrumental music - PSHE with creative music making

A message from Mary Myatt, Educator, Keynote Speaker & Author:

'This is a lovely resource to support teaching about compassion and resilience. It contains plenty of ideas to help teachers use the beautiful illustrations to open up conversations for pupils to explore what it means to be emotionally healthy. Supported with music and plenty of additional materials, teachers will find this a very helpful addition to their work on PSHE, religious education and creativity.'
